June 2021

## What do trainees say?

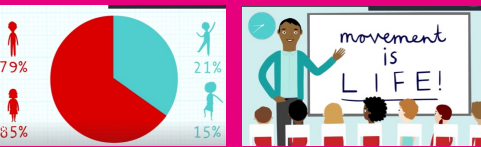

### About ICT

"With hi-impact we looked at how we can utilise programs like PowerPoint to make our lessons more interesting and interactive. Using technology purposefully to create, manipulate and retrieve digital content."

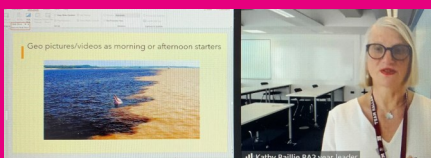

### About PE

"I now have loads of practical ideas to use and I feel more confident to teach PE lessons. I also enjoyed how much you mixed up the day, with independent work, breakouts and direct instruction from yourselves, as well as very high quality videos."

### About Geography

"I really enjoyed how Kathy showed us how to use our local area to teach geography. This makes it more relevant and meaningful to the children. The environment and climate change is an important topic that needs to be brought into every classroom."

### Summer 1

During summer 1, we were able to go into schools and see all our trainees. It was wonderful to see trainees and mentors in person.

Placements were also completed. We would like to thank schools and mentors for their hard work and support for making placements such a success.

### Mentor drop in

We had drop in sessions for mentors to discuss final mentor reports, key assessment review (KAR) and expectations for the final half term. Final mentor reports are due on Monday 28th June 2021.

### Centre-based training

We have organised some extra twilight sessions for our trainees, focusing on deepening subject knowledge around reading and writing and including more on multi-linguistic learners.

Our final training day is on Friday 9th July. The session is focused on outdoor learning with the whole group.

Our celebration day to wrap up the year will be on Monday 5th July.

### Upcoming training

For new 2021/22 mentors, we have the following **online** training this half term.

Successful Classroom Observation (SCO) with Penny Holden on 15th June, 16th June & 14th July 2021

Advanced Coaching and Mentoring on 21st June & 5th July 2021
